Welcom to rising Mokpo with citizens.

Hello, everyone! I'm the Mayor of Mokpo City, Kim Jong-sik.

I truly welcome all of the netizens to the Website for Mokpo City

Our Mokpo is having abundant cultural tourism resources as the hub of economy, society, education and culture of the southwest area of Korean territory

In addition, on the strength of the natural environment embracing the sea, river, and mountain, and all transportation networks like an airport, seaport, railroad and expressway, etc., Mokpo is spreading its wings of growth as an international maritime, tourist and logistics city.

I have good hopes that this cyberspace will be a notification room where netizens can share the changing looks of our town, and the space where my respected netizens share fresh, honest views with each other. I'd like to express my heartfelt thanks to all of the netizens who visit the Website for our city-Mokpo, and I wish you could have a useful time of meeting.

Thanks a lot.
